

TC Handling Systems

Slab Bar Tong

Datasheet

002-2010

Technical Data:

Range: 600–3000 mm

Width: 150–760 mm

Capacity: 10–45 tons

Weight: 1500–7000 kg

The TC Slab Bar Tong is designed for handling of slab and T-bars by grabbing in the end section. The TC units has a hugh range and can normally handle the complete range with one unit. The TC units has low height and leaves very small handling marks.

With the TC Slab Bar Tong you may handle slabs and T-bars vertically and horizontally using the same unit.

Advantages:

- Huge range
- Low height
- Extra mechanical safety system available
- Reliable in operation - low maintenance.
- Service and maintenance system available
- Huhg number of systems in operation
