The TC Billet Tong is designed for handling of extrusion billets from DC casting pit to lay down position. It is normally possible to handle all dimensions with the same unit without any readjustment.

The tong may also be used for handling of square billets, oval billets, T-bars and slabs.

Advantages:

- All diameters with the same unit with—no readjustment
- No handling marks after cropping
- One man operation
- Safe operation
- Reliable—low maintenance

Datasheet
001-2010

Technical Data:

- Range: 70—890 mm
- Length: 1500—6000 mm
- Capacity: 10—25 tons
- Weight: 1500—4500 kg
